

Alireza Shabanzadeh

Motion graphics designer — explainers, UI motion, social cuts

alirezashabanzadeh01@gmail.com · +98 911 694 7375 · Rasht, Iran (remote)
Work, reel and availability: alirezashabanzadeh.com/work-pack.html

WHAT I DO

I make product and learning ideas move: explainer videos that make one feature obvious, UI motion that makes an interface feel responsive, and social cuts that stay legible on a phone. Direct communication in English and Persian.

TRACK RECORD

Since 2018 I have worked on both sides of this job — four years and nine months producing e-learning content at Mehr-e-Alborz University (until 2023), and motion graphics in production at Rahavard Samanehaye Amn in Tehran since 2023. I studied software engineering (BSc, GPA 17.8/20) and I am finishing a master's in English language education.

SERVICES

- Explainer video — script shaping, storyboard, finished animation, delivered in 16:9 / 1:1 / 9:16.
- Social content — short animations built for the first frame, readable captions and correct safe areas.
- UI motion — transitions, onboarding moments and empty states for apps and websites, in the format your developers prefer.

EXPERIENCE

Motion Graphics Designer	2023 — Present
	Rahavard Samanehaye Amn · Tehran

E-learning Content Creator	2018 — 2023
	Mehr-e-Alborz University · 4 yr 9 mo

Associate, Software Engineering	2020 — 2022
	GPA 18 / 20

TOOLS & LANGUAGES

After Effects · Photoshop · Premiere Pro Persian (native) · English (advanced)

WORKING WITH ME

Fixed scope and a fixed price agreed before anything starts. I read every brief myself and reply within one working day, usually with a couple of questions and a realistic timeline. Rates are quoted per project after the brief.
